

Around the farm...

craigie's

FARM DELI AND CAFE

walks

There is a great network of paths on and around Craigie Hill to the west of the farm. Follow the signs from the farm shop to get the best access to the hill. Look out for the interruption boards located just opposite the entrance to the hill. Be prepared for a bit of puffing to get up the hill but once you are up you can get some great views of the surrounding area. There are formal and informal paths plenty of unmarked routes to explore.

nature trail

Ask for a leaflet and crayons at the shop and set off to find out what we do to farm with nature. There are a series of nine brass rubbings to seek out and rub as well as plenty of interpretation for mums and dads. The trail can take anything from 30 minutes to one hour, woollies recommended if the weather has been wet!

pick your own

Craigie's is well known for its fruit picking, PYO can be a great family day out for all ages. Just pick a basket at the shop, fill it with fruit then go to the shop to pay for what you pick. If you get carried away and pick too much, why not pick up some tips for jam making in the shop and try your hand at jam making? This is a seasonal activity so check out our web site for availability.

kids play area

At Craigie's we believe that simple activities are the most fun (and cheapest for mum and dad!). The kids play area is located in a fenced area beside the cafe; the old tractor is a firm favourite! As well as the play area, check out our livestock area. Please remember Craigie's is a working farm and children must be supervised by an adult at all times.
